PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student and Google-certified Data Analyst who builds end-to-end machine learning and analytics solutions — from an AI candidate-ranking engine to predictive models and stakeholder dashboards. Skilled in Python, SQL, scikit-learn, and BI tooling, with a track record of turning raw data into measurable, decision-ready insight. Seeking Data Science, Machine Learning, AI Engineering, or Data Analyst roles.

TECHNICAL SKILLS

Languages: Python, SQL

Machine Learning & Data Science: scikit-learn, Pandas, NumPy, EDA, Feature Engineering, Classification, Model Evaluation (Precision / Recall / Confusion Matrix), Class Imbalance Handling, Statistical & Correlation Analysis, Monte Carlo Simulation, Information Retrieval & Ranking, NLP Text Matching

Data Visualization & BI: Power BI (DAX), Tableau, Matplotlib, Seaborn, Dashboard Development, KPI Reporting, Data Storytelling

Cloud & Databases: Google BigQuery, Google Sheets

Tools & Workflow: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

PROJECTS

Redrob Ranker — AI Candidate Ranking Engine *Python · scikit-learn · NLP · Information Retrieval*

- Built a CPU-only AI ranking engine that scores and ranks the top 100 candidates from a 100,000-candidate pool against a Senior AI Engineer job description in ~60 seconds — within strict constraints (≤ 5 min, ≤ 16 GB RAM, no network).
- Designed a five-component interpretable scoring model with reverse-engineered JD signals, honeypot / anomaly detection, and a 44-template career-evidence classifier to surface genuinely qualified candidates.
- Engineered a fact-grounded, hallucination-checked reasoning engine that outputs human-readable justifications per candidate; delivered a deterministic, fully reproducible pipeline with automated submission validation. Built for the Redrob × Hack2Skill INDIA.RUNS Data & AI Challenge (2026).

Customer Churn Prediction & Retention Analytics *Python · scikit-learn · Power BI*

- Engineered an end-to-end churn pipeline on 7,000+ Telco records — handled missing values, encoded categorical features, and prepared data for modeling using Pandas.
- Trained a scikit-learn classification model with class balancing to prioritize recall for churn detection; evaluated with accuracy, precision, recall, and confusion-matrix analysis.
- Identified top churn drivers (month-to-month contracts ~40%+ churn, first 12-month tenure, electronic-check payments) and shipped an interactive Power BI dashboard with churn KPIs and retention recommendations.

Financial Portfolio Optimization & Efficient Frontier *Python · Pandas · NumPy*

- Analyzed 7 years (2018–2025) of daily price data for AAPL, MSFT, GOOGL, and AMZN to compute annualized returns, volatility, covariance, and correlation for diversification analysis.
- Ran 5,000+ Monte Carlo simulations to optimize asset allocation, improving the Sharpe Ratio from 0.87 (equal-weight) to 0.92 (optimized) and visualizing the Efficient Frontier.
- Applied Modern Portfolio Theory to recommend risk-adjusted allocations, reducing exposure to the highest-volatility asset by ~24 percentage points.

Climate & Energy Analytics — CO₂ Emissions & GDP *SQL · Google BigQuery · Python*

- Queried and cleaned large-scale Our World in Data CO₂ datasets in BigQuery; ran time-series analysis comparing total and per-capita emissions across India, China, and the USA.
- Performed correlation analysis between GDP and emissions, surfacing tight GDP–emission coupling in China and partial decoupling in the USA through statistical trend analysis and EDA.

EXPERIENCE

AI & Cloud Intern

Jun 2026 – Jul 2026

IBM SkillsBuild · Edunet Foundation

- Selected for the IBM SkillsBuild AI & Cloud internship, gaining hands-on exposure to Artificial Intelligence concepts, cloud computing fundamentals, and industry-oriented learning under structured mentorship.

CERTIFICATIONS

Google Data Analytics Professional Certificate — [Google / Coursera](#)

EDUCATION

Bachelor of Engineering, Computer Science Engineering

2023 – 2027

AMC Engineering College, Bengaluru
